

POSlink POS08

Connecting POS to Eftpos

completing your
eftpos interface
pos-L

what it does

The **POSiLink PS08** from **DISTRIBUTION ONE** interfaces P.O.S. terminals / cash registers (one & two-way interface) to the Suncorp Eftpos terminal.

Even though it is hardly bigger than a deck of cards and powered from the Eftpos terminal, the rugged **POSiLink PS08** is very effective as it reduces the chance of human error and improves productivity therefore saving time and money.

Just some of the added advantages of the **POSiLink PS08** include:

1>> Improves transactions speed therefore decreasing queues by approximately 9 to 14 seconds per person.

2>> Accurate dollar value – every time ie. no overcharge / undercharging clients.

3>> **POSiLink PS08** interfacing provides an excellent solution for small to medium P.O.S. for a fraction of the price of what has traditionally only been seen on the very top end P.O.S.

4>> A sales cost which is generally recouped within 1 to 6 months via accurate sale values (no keying errors) and a quicker queue pull-through.

5>> The “plug & play” feature allows the merchant to add the Eftpos terminal with the simplicity of 1,2,3.

about it

The **POSiLink PS08** hasn't exactly come out of the blue. It has been undergoing continual development testing and perfection in New Zealand since 2002 and has continually proven itself to be a very stable & reliable device in the P.O.S. market.

While the **POSiLink PS08** is always willing and ready to get to work on any PC, it has a real soft spot for retail-specific hardware. By listing on our website all of the certified hardware equipment and software programs, we've made it easy for you to view our continually growing list of POS technology solution partners.

Your **POSiLink PS08** is readily available via any authorised reseller of Australia's leading payment suppliers and solution development partner - **DISTRIBUTION ONE**.

what
else?

Far from one-dimensional, the **POSiLink PS08** and **Suncorp EFTPOS** team possess real depth and substance. Not to worry though, they aren't complicated and are certainly more than affordable. Especially when you consider how much they do to help improve your retail operations compared to a traditional non-interfaced terminal.

For example, it eliminates the need for the manual re-entry of credit and debit card payments into a separate EFTPOS terminal, reducing the risk of error since you only need to enter payment details once.

And even though it's brilliant at handling credit and debit card payments while interfacing with the **POSiLink PS08** to your POS, the **Suncorp EFTPOS** terminal is perfectly happy to simply work with standalone payments.

DISTRIBUTION ONE works with many partners with innovative applications and ideas. Especially on how to harness the power of Internet Eftpos to help retailers like you run your businesses with less effort, more insight and much more potential for greater profits.

Optional applications available with the interfaced **POSiLink PS08 / Suncorp EFTPOS** payment solution include **touch** Prepaid Mobile Top-up. Other applications available from Distribution One include the **SaleGrabber** POS data collector and the **StickyFeet** Loyalty, Gift Card and Customer Engagement platform from IQ Gecko.

cool
stuff

SUNCORP BANK
Business

A selection of Point of Sale brands can now interface through the POSiLink directly to the Suncorp Bank EFTPOS terminal.

Suncorp Dial-Up, GPRS, Broadband terminals.

Suncorp also offer the StickyFeet loyalty and gift card platform from IQ Gecko.

With Suncorp Eftpos you can offer PrePaid Mobile for FREE!!!

That's right, you can now have your Eftpos terminal make you money with Pre-Paid Mobile

(A complimentary upgraded service with most Suncorp Eftpos terminals).

SaleGrabber collects the sales data that goes to the printer.

It then attaches this data with the Loyalty Card customer details so that you can track exactly who bought what, where, when & for how much.

A fantastic Reports and Analytical tool.

Enjoy the power and profits that come with your own loyalty and gift card programs.

With StickyFeet from you can offer a better sales experience for both you and your customer.

But most importantly, StickyFeet provide a real return on investment.
